Dear Parents & Students in the Class of 2021,

New information has been released from the New Jersey Department of Education clarifying graduation requirements and PARCC testing, which will directly affect the students in the class of 2021, our current eighth grade students. Students in the Class of 2021 must pass the PARCC ELA Grade 10 exam as well as the PARCC Algebra I exam in order to demonstrate proficiency for high school graduation in the areas of English Language Arts and Mathematics. Keep in mind the majority of Fort Lee students take Algebra I in grade 8.

If a student does not meet a passing score on the PARCC ELA Grade 10 exam and the PARCC Algebra I exam respectively, he/she will be allowed to participate in the NJDOE Portfolio Appeals to meet graduation requirements under certain conditions. In order to qualify for the NJDOE Portfolio Appeal for language arts, the student must have taken the Grade 9, 10, and 11 PARCC ELA exams. In order to qualify for the Portfolio Appeal for mathematics, a student must have taken the PARCC Algebra I, PARCC Geometry, and PARCC Algebra II exams. **If a student does not sit for all of the aforementioned exams, he or she will not be eligible for the NJDOE Portfolio Appeal.** I have attached the information provided from the NJDOE for your review. Please see page 1 and page 5. These changes are not that of Fort Lee High School but that of the New Jersey Department of Education.

Be aware that if an eighth grade student in the Class of 2021 does not participate in the Algebra I PARCC exam, they run the risk of not meeting the state mandated testing requirements for graduation. It is my expressed opinion and that of Mrs. Lauren Glynn, High School Principal, that all students must participate in PARCC assessments for both English Language Arts and Mathematics in April of 2017.

If you have any questions, please do not hesitate to email me at [lcarrubba@flboe.com](mailto:lcarrubba@flboe.com) or call me at (201) 585-4675 ext. 6511. ## High School Graduation Assessment Requirements

Updated January 2017

On August 3, 2016, the State Board of Education approved updated state regulations for the high school graduation assessments requirements in both English language arts (ELA) and mathematics for the Classes of 2016 through 2021, and beyond. These new state regulations ([N.J.A.C. 6A:8-5.1](#)) became effective on September 6, 2016.

**The Classes of 2017, 2018, and 2019** – Students graduating as members of the Classes of 2017, 2018 and 2019 can meet graduation assessment requirements through any of these **three pathways**:

- (1) Achieving passing scores on high-level PARCC assessments;
  - (2) Achieving certain scores on alternative assessments such as the SAT, ACT, or Accuplacer; or
  - (3) The submission by the district of a student portfolio through the Department’s portfolio appeals process.
- (Special Education students whose Individualized Education Plans (IEPs) specify an alternative way to demonstrate proficiencies will continue to follow the graduation requirements set forth in their IEPs.)

**The Class of 2020** – Students in the Class of 2020 can demonstrate graduation assessment proficiency through the same **three pathways** as those in the Classes of 2017 through 2019, provided that **students in the Class of 2020 take all PARCC assessments** associated with the high-school level courses for which they were eligible\* and **receive valid scores**, as of the September 6, 2016 effective date of the amendments were adopted by the State Board of Education.

**The Class of 2021 and Beyond** – Starting with the Class of 2021, students will only have **two pathways** to meet the high school graduation assessments requirements:

- (1) Pass the ELA 10 and Algebra 1 assessments; or
- (2) The submission by the district of a student portfolio through the Department’s portfolio appeals process, **assuming the student has taken all PARCC assessments** associated with the high-school level courses for which they were eligible\* and **receives valid scores**.

Each school year the NJDOE will determine the proficiency level needed on the assessments to meet the requirements.

It is important to note that our students have always been able to meet graduation requirements through an alternative assessment or pathway to graduation throughout New Jersey’s forty-year history with a statewide assessment program, and will continue to be able to do so.

In this document, you will find charts containing the list of assessment requirements in both ELA and mathematics for the high school graduation Classes of 2017 through 2021.

*Note: \* “Eligible” is defined as a student who is enrolled in a high-school level course for which there is a PARCC test and receives a valid score. This includes all of these courses: Algebra I, Geometry, Algebra II, ELA 9, ELA 10, and ELA 11.*
