The Platform Behind Every Payment.

PaySchools Central makes school payments quick and simple.

By putting the power back in the hands of parents, PaySchools Central makes registration and payments easy. Parents never have to worry about their children running out of lunch money thanks to greater control over how and when to pay.

KEY CAPABILITIES

1 **Simplified Payments Online**

Dashboard-style website clearly lays out all information so parents can see students' balances immediately

Effortlessly create reports for all transactions and activites by a single student or the entire family

2 **Easy Account Setup & Auto Replenishment**

No credit card required means parents are up and running in minutes

Parents never have to worry about their children running out of money for lunch or other activities

3 **Intuitive Checkout**

Enables payments across multiple districts and multiple students with a single transaction

4 **Search and Filtering**

Give parents easy access to what they're looking for

ADVANTAGES FOR YOUR DISTRICT

Increased Revenue

Parents can pay quickly and easily. Payments are delivered to QuikLunch, our school lunch point-of-sale system, within minutes so parents can pay while their child waits in line.

Displays bonus balances and rules so you can reward online lunch payments with bonus funds to incentivize parents

Increased Efficiency

Fewer phone calls to your office staff because the system gives parents greater control for payment options, meal restrictions, site navigation, and password recovery. A Help Portal assists users with issues.

Fees are grouped by category to give you greater control. Fee categories are set up and managed in PaySchools Admin, outside of the Student Information System, which gives you greater flexibility and additional oversight.

Auto replenishment eliminates the need to send reminder notices to parents and creates faster lunch lines because children aren't paying with cash or checks

Notification of events and personal messaging inbox creates better communication with parents thanks to notifications about upcoming fees, low lunch balances, monthly statements, and system issues

Increased Control and Flexibility

Future payments scheduling helps parents to schedule payments and not worry about them later

Meal restrictions for QuikLunch enables parents to set limits on what their children can eat and how much they can spend so your staff doesn't have to worry about it

Optional fee payments are displayed based on building, grade, gender, available spots, and more, and installment payments can be allowed for these items

Online user reporting makes it easy for parents to get the information they need, including transaction history, account balance, and account history
